EXAMINER'S AMENDMENT

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: The parallel conducting lines shown on the roll directly above roller, 151 in Fig. 3 should be removed from the exposed side of the web material rolled on the roll and should be added to the hidden side of the web material which can be seen at element 170. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The newly cited references to Benge and Uchibori each show manufacture of electronic devices comprising cutting sections of a web and bonding to a second web, but these references, either alone or in combination with any of the other prior art, fail to suggest all of the claimed method steps including coating conducting lines perpendicular to the transport direction on one web, coating a liquid crystal material over the conducting lines, cutting away portions of that web, coating conducting lines parallel to the transport direction of another web, and adhesively sealing the two webs together.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark A. Osele whose telephone number is 571-272-1235. The examiner can normally be reached on M-F 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher Fiorilla can be reached on 571-272-1187. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
